+ Recycled Polymailers

Made from 100% Recycled Content, Strong and lightweight, polythene mailers are the perfect choice for keeping costs down but also for ensuring products are kept secure and safe during postage. All of our mailers are opaque to keep contents hidden and safe, ensuring confidentiality at all times. Self-seal strips make for easy closure allowing you the flexibility of resizing your mailer to hold the product secure along with providing tamper evidence. The construction of the plastic envelopes makes sure contents are protected from water.

+ Tape

Tape is an essential component of a well packaged parcel. It holds the contents within the box, it stabilises the shape of the item, and serves as an indication as to whether the contents have been tampered with.

+ Water Activated Tape

Eco-friendly water activated paper tape. Once the tape is attached any attempt to tamper with or remove it will result in obvious damage to the carton. Machine to activate the tape is also available, please contact us for details.

625464	Blue UV Masking Tape 48mm x 50m	24

+ Corrugated boxes

We have upgraded our standard stock box range to improve efficiency and maintain reliable performance. Many new double-wall grades now offer higher ECT values, increasing edge strength, reducing deformation and improving stack stability. While some grades have slightly lower BCT ranges, testing shows that in typical paper-on-pallet applications, working loads remain safely below compression limits with a clear safety margin. The lighter box design also supports greater pallet density and can help reduce transport CO2. All claims are substantiated by test data and based on comparison with the previous standard box specification. Data available on request.

+ Go Bespoke

If you can't find what you are looking for, 'Go Bespoke' with a quick turnaround and small runs from 100 boxes available

+ Custom-sized Boxes and Book Wraps

Looking for a size not available in our stock range, we offer a wide range of sizes and styles to suite your needs via our box-making service. Available in small runs and short lead times.

FEFCO BOX STYLES AVAILABLE

Below are examples of some of the most popular FEFCO box styles - more are available to view at [fefco.org](https://www.fefco.org)

+ Strapping & pallet protection

Our range of strapping and pallet protection materials include hand and machine strapping bands and edge protectors. Our strapping bands come in a selection of colours and offer an alternative to stretchfilm for securing boxes during transit. Combined with the edge protectors to strengthen loads and prevent damage.

+ Corrugated Layer Pads

Corrugated cardboard layer pads are a versatile packaging solution which can be used for increasing the stability of palletised packages as well as providing surface and edge protection or to fold over and construct a postal wrap.

ITEM CODE	DESCRIPTION	PACK QTY
621554	Corrugated Layer Pad 1200mm x 800mm	400
617394	Corrugated Layer Pad 1062mm x 1575mm	50
618495	Corrugated Layer Pad 1220mm x 2440mm	250
618672	Seperator & Interlayer Board Brown 1000x1200mm	400

+ Cardboard Edge Protectors

Cardboard edge protectors are used when stacking pallets to help to strengthen loads and make them more stable for shipping. Cardboard edge protectors can also be cut down to be used inside boxes to improve strength or put onto pallets to help prevent box damages through strapping or stretch film securing.

ITEM CODE	DESCRIPTION	THICKNESS (MM)	PACK QTY

623721	12mm Tensioner	1
623709	Mobile Dispenser + Seal Tray	1
620140	12mm Semi-Open Standard Seals	2000

+ Polypropylene Strapping

Plastic strapping is used as anti-theft protection and also to help secure goods on pallets to keep them stable for transit, thereby helping to reduce movement and damage. Polypropylene strapping is perfect for light to medium weight goods – and due to its elastic properties, it offers resistance against scrapes and knocks.

ITEM CODE	DESCRIPTION	BREAK (KG)	CORE/THICKNESS	PACK QTY

608457	330 x 270mm	80		20
608458	380 x 290mm	80		20

+ Cushioning and void fill

It's very important to have the most effective 'in the box' padding to keep your items in perfect condition during transit or storage. Our comprehensive range of cushioning and void fill materials includes everything from corrugated rolls and bubble film to foam and loose fill chips.

Designed to protect your products from damage and rubbing, all have different benefits, uses and environmental features to suit your needs.

+ Master'in Loose Fill Chips

The Master'in range of loose fill chips offer environmentally friendly options for filling packing voids and offering added product protection. Loose fill chips are designed to protect products by absorbing shock and vibration that can be encountered during packing and transit. Choose from the 100% recycled product that is made from post consumer and industrial waste, which can also be reused or recycled, or from the bio chips that are designed to be compostable in domestic or bio waste.

ITEM CODE	TYPE	BAG SIZE (FT³)	UNIT
612382	Biodegradable	15 Cubic FT	Pack
612411	100% Recycled	15 Cubic FT	Pack

+ Single Faced Corrugated Rolls

Corrugated paper rolls are made from 100% recycled paper, with smooth paper on one side and corrugated fluting on the other. The raised fluting offers cushioning and padding, while the smooth paper helps to reduce scratches on delicate surfaces. Being made from paper, the product is lightweight, which makes it ideal for wrapping, packing and void filling.

+ Pure Kraft Paper Rolls

Pure Kraft paper is a superior strength brown paper, made using well bonded fibres to ensure the paper is robust. Because Pure Kraft paper is made using unbleached pulp, the paper has higher strength and durability which offers superior puncture and tear resistance. These Pure Kraft paper sheets are fully recyclable and biodegradable. The roll format allows for easy dispensing if used in conjunction with a counter top roll holder.

+ Imitation Kraft Paper Rolls

Imitation Kraft is manufactured from recycled fibres, which means that it can be a cost effective alternative to Pure Kraft. Imitation Kraft lends itself more for light to medium use and is used mainly for wrapping but can still be effective as a protection layer. These Imitation Kraft paper rolls are fully recyclable and biodegradable. The roll format allows for easy dispensing if used in conjunction with a counter top roll holder.

+ Fillpak Manual

The FillPak Manual converter is designed to eliminate labour-intensive 'crumpling' of paper by hand. The converter takes a single layer of paper and forms it effectively to provide effective product protection during delivery. It's simple compact design, and no need for electricity, means it can be placed in any packing environment.

Film

Hand and machine stretch films designed to hold goods securely on a pallet during transit. Available in blown and cast film, the ever evolving range offers increased efficiency and cost savings.

Master'in Blown Hand Stretch Film

Blown hand stretch films offer excellent puncture resistance, which makes them great for wrapping odd shape pallets or products. Blown films also offer superior tack over cast films, which makes them stick to pallets and goods easier, which speeds up the wrapping process. Blown films are not as elastic as cast films, so it is easier to apply larger force on packed pallets, which makes the film perfect for use on heavier pallets and goods.
