intec PRINTING SOLUTIONS | color *flare*

Desktop foiling and lamination from one compact unit

Easily add decorative creativity to printed sheets with ColorFlare

Laminates | Foils | Holographics

- Foiling, lamination and flaring effects are possible with this single desktop solution
- Class leading affordability
- Uses 3" (77mm) core rolls providing more cost effective production
- No need to have traditional UV coating for diverse effects
- Simple in-house process - no expensive blocks or dies required

1.3m P/MIN

1,200 SRA4 P/HOUR

80 ~ 350 gm²

FORMATS Max Width: 330mm Custom lengths

MULTI FX

HEATED TOP & BOTTOM ROLLERS

ADJUSTABLE PRESSURE 50kg/m²

HOUSEHOLD 220 ~ 240V

**W = 580mm
L = 500mm
H = 430mm**

TOP FEATURES

- Ideal entry level machine for:
  - gloss & matt lamination
  - over-printable soft touch lamination
  - gloss & matt lamination
  - metallic & coloured foiling
  - holographic effect films
- Handles SRA3 + media
- Easy continuous feed
- Adjustable pressures for different applications
- Tension control
- De-curling bar for flatter sheets
- Heated top and bottom rollers designed to apply overall heat to substrates - avoids silvering of laminates
- Auto stop function to save foil waste
- Cutting knife for end of job trimming
- Air cooling offers a wider media range
- Quiet operation
- Uses conventional household 220~240V power supply

TYPICAL APPLICATIONS

- Packaging
- Presentation folders
- Business cards
- Certificates
- Menus
- Book covers
- Wedding stationery
- Labels
- Swing tickets
- Point–of–sale
- Photo albums
- Gift vouchers

Air cooling system

Easy to use controls

Tension control
De-curl bar

Adjustable pressure

Technical specifications*

|	
Laminating speed	1.3m/min
Base substrate thickness	Lamination: 80gm^2 to 350gm^2 Foiling: 120gm^2 to 350gm^2
Paper Size	Maximum: 330mm to 500mm Minimum: 180mm x 230mm
Warm-up time	5 minutes
Heating system	Infrared heater
Laminating temperature	Top roller: maximum150°C Bottom roller: maximum 100°C
Temperature control	Control panel push button
Speed control	Control panel push button
Display system	LCD display
Roller pressure	Adjustable manual handle
Film core size	77mm (3")
Air cooling system	Dual fan system
Temperature sensing method	Internal thermo-couple
Rear trimming knife	Blade for end of job trimming
Power requirement	AC 220~240V, 50/60Hz, 7A
Power consumption	1.5kw

## A growing range of consumables…*

Lamination films

Various finishes including: gloss, matt and soft touch, for litho and digital print. Digital laminates are corona-treated for subsequent over-printing.
Foil flaring films

Available in a growing range of colours including: gold, silver, red, green, blue, violet, black, white and clear gloss. All can be applied direct to print.
Holographic flaring films

Such as: sparkle, milky way, crystal, carbon fibre… Perfect for adding premium effects to print.
See consumables support sheet.
