

VISUAL COMMUNICATIONS

A complete guide to products, applications and print suitability

antalis ^{EM}

YOUR MEDIA PARTNER FOR LARGE FORMAT PRINTING, SIGNMAKING, VEHICLE WRAPPING, DISPLAY AND INTERIOR DECORATION.

ANTALIS IS A MARKET LEADER
IN THE DISTRIBUTION OF LARGE
FORMAT MEDIA, REPRESENTED
IN 31 COUNTRIES.

WHETHER YOU ARE A BRAND
MANAGER, MARKETING DIRECTOR,
COMMUNICATION MANAGER, INTERIOR
DESIGNER, EXHIBITION DESIGNER,
STAND BUILDER, SIGN MAKER OR
LARGE FORMAT PRINTER, WE AIM TO
BE YOUR PARTNER OF CHOICE FOR
ALL YOUR VISUAL COMMUNICATIONS
NEEDS, WITH A STRONG COMMITMENT
TO BRINGING MORE SUSTAINABLE
SOLUTIONS TO MARKET.

TECHNICAL EXPERTS

We have extensive knowledge and experience within the visual communications and print industry, and we're here to provide you with support when you need it. From choosing the right product to problems on press.

SPECIFICATION CONSULTANCY

Our Specification Consultants are dedicated to helping designers, brands and printers choose the most suitable products to deliver their creative ideas in print. Contact us from the early stages of your project for free of charge help in specifying the right materials and achieving the very best results for your designs.

HARDWARE CONSULTANCY

Our Hardware Development Managers are dedicated to helping print service providers make the correct hardware investment based on their application and budget.

Contact us at an early stage to help guide you through the diversity of manufacturers, models and technologies.

IT'S MORE THAN THE PRODUCTS WE SUPPLY.

IN A MARKET THAT IS FAST PACED AND CONSTANTLY CHANGING, YOU CAN RELY ON US TO ADD VALUE TO YOUR BUSINESS THROUGH OUR INDUSTRY EXPERTISE, PRODUCT RANGE AND SERVICE OFFER.

DELIVERING ON TIME, EVERYTIME

Next day delivery comes as standard giving you your products quickly to get the job done efficiently.

CONVERSION CENTRE

A dedicated conversion facility is available to cut reels and sheets to the size you want. Slitting, sawing, re-packing and re-palletising services are also available allowing you to be more productive.

EASYSTOCK VMI

Easystock is an exclusive Vendor Managed Inventory (VMI) service specially designed to optimise your inventory management and automate your most repetitive orders across our Visual Communication range.

EASY ORDERING

Our eshop allows you to check real-time stock availability, review your personalised pricing and order samples!

What's more, ordering online is so simple too - create a favourites list, use the quick order box or advanced search facility.
Create your account today!

SUBSTRATE SPECIFICATION FOR A SUSTAINABLE FUTURE

SUSTAINABILITY IS AT THE HEART OF WHAT WE DO. EVERYDAY, WE ARE WORKING TOWARDS REDUCING OUR ENVIRONMENTAL FOOTPRINT WHILE PROVIDING INNOVATIVE SOLUTIONS AND A HIGH LEVEL OF SERVICE TO OUR CUSTOMERS.

SUSTAINABLE PRODUCTS

We are continuously developing our portfolio to bring customers innovative and sustainable products that meet environmental challenges. We have applied our proven Green Star System™ to our visual communication products which measures key factors including raw material used and recyclability at end-of-life. Each product comes with a rating from zero to five stars and we aim for 40% of our products sold to be rated 3-stars or higher by 2026.

CARBON BALANCING

We also help our customers carbon balance the products they procure from us to offset unavoidable carbon emissions from manufacture. This not only helps customers and their clients to take positive action against global warming but allows them to advertise their commitment and enhance their brand. We work with established companies that support schemes preserving global forests at risk of deforestation as well as schemes that plant new woodlands in the UK. We can also help you calculate your carbon footprint as a business and offset this too. Our experts are also on hand to advise on maximising print efficiencies to reduce your energy consumption and carbon footprint.

CONSULTANCY & CERTIFICATION

We offer a complete range of consultant services to help businesses achieve Chain of Custody (FSC and PEFC), EU Ecolabel, ISO certifications and an environmental health check. We help you identify the relevant aspects and impacts of your business, create your working practices and provide all training and support you need.

WASTE MANAGEMENT

We can not only help you with certification but also advise on how to reduce your waste and dispose of it in the most responsible way. Antalis work with a leading provider of waste management services in the print industry with a network of recycling contractors across the UK and Ireland. Our partner will conduct a free audit of your waste then help you to reduce it as well as manage how best to recycle, use, or dispose of each material type generated. This partnership encourages environmental awareness and is aimed at eliminating landfill with a knowledge-based approach to waste and recycling management. Get in touch with us to enquire about our services, so that we can help tackle climate change together.

GREEN STAR SYSTEM™ FOR VISUAL COMMUNICATION

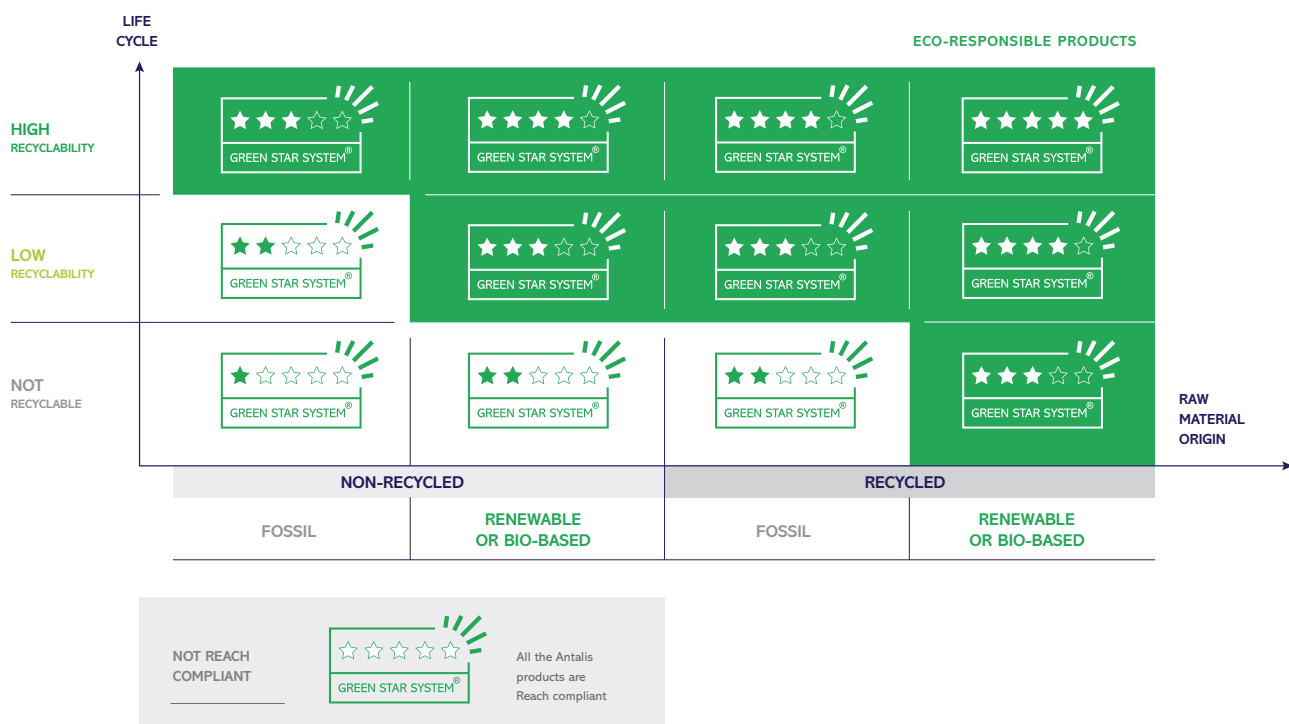

WE HAVE EXTENDED OUR PROVEN GREEN STAR SYSTEM™, TO INCLUDE OUR VISUAL COMMUNICATION PRODUCTS WHICH MEASURES KEY FACTORS INCLUDING RAW MATERIAL USED AND RECYCLABILITY AT END-OF-LIFE. EACH PRODUCT COMES WITH A RATING FROM ZERO TO FIVE STARS AND WE AIM FOR 40% OF OUR PRODUCTS SOLD TO BE RATED 3-STARS OR HIGHER BY 2026.

RAW MATERIAL ORIGIN

- **FOSSIL FUELS** are hydrocarbons, primarily coal, fuel oil or natural gas that are not derived from plant sources
- **RENEWABLE & BIOSOURCED** material from plants which are based on photosynthetic primary production
- **RECYCLED** having been used before and then put through a process so that it can form a new product
- **LOW RECYCLABILITY:** the raw material is difficult to recycle and can only be recycled in a very specific stream. Lack of specific waste stream widely reported. The plastic is made with single material polymers such as PVC
- **HIGH RECYCLABILITY:** Good process of recovering waste plastic and reprocessing the material into useful products. It is mainly the case of single material polymers such as PET, PP and PE

LIFE CYCLE

- **NOT RECYCLABLE:** the product has major issues to prevent it from being recycled either because of fundamental design issues or lack of specific waste stream. This is the case of multicomposite materials or material with other substances such as additive or adhesive
- Sometimes, plastics are the best choice and even ecologically pragmatic, like heat-reflective window films or decorative coverings to avoid wasteful building renovations. However, there is a clear urgency to move from fossil heavy materials to recycled, recyclable and fibre-based solutions. We offer eco-responsible alternatives for most indoor and outdoor visual communication applications with the same high level of performance

ALUMINIUM COMPOSITE

COALA PRINTBOND NFP92 503-505 - M1

Coala Printbond is a high quality aluminium composite range consisting of multiple 3mm grades for all common signage applications produced using ACM. Features include excellent sheet dimension tolerance and flatness and an optimised matt white paint surface for UV digital printing. Coala's core is made of a 100% one-time recycled LDPE to ensure good cutting performance balanced with environmental considerations. The producer is also ISO 14001 certified.

ITEM NUMBER	DESCRIPTION		DIMENSIONS	MOQ
608327	Coala Printbond 128 Base Digital White Matt/Grey		1220 x 2440 3mm/0.12mm	1
608328	Coala Printbond 158 Ultralite Digital White Matt/Grey		1220 x 2440 3mm/0.15mm	1
608329	Coala Printbond 158 Ultralite Digital White Matt/Grey		1500 x 3050 3mm/0.15mm	1
608330	Coala Printbond 208 Lite Digital White Matt/Matt		1220 x 2440 3mm/0.20mm	1
608331	Coala Printbond 208 Lite Digital White Matt/Matt		1500 x 3050 3mm/0.20mm	1

STADUR VISCOM SIGN EASYPRINT

Stadur Easyprint is a sister product to Sign SF with the added benefit of being excellent for 3D fabrication. The XPS core is applied either side with unique 0.6mm Stadurlon PP liners which enable the panel to be formed into highly complex three-dimensional shapes and designs. Stadur Easyprint is 100% PVC-free. Available in white and black.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
617011	Stadur Viscom Easyprint White	1220 x 2440mm 10mm	1
617012	Stadur Viscom Easyprint White	1530 x 3050mm 10mm	1
617013	Stadur Viscom Easyprint White	1220 x 2440mm 19mm	1
617014	Stadur Viscom Easyprint White	1530 x 3050mm 19mm	1
617015	Stadur Viscom Easyprint Black	1530 x 3050mm 10mm	1

In addition to the Stadur SF and Easyprint grades available from Antalis stock, we offer ex-mill* access to grades including:

- **Thickness up to 100mm**
- **Lengths up to 4050mm**
- **Stadur Viscom Easyprint Colour** - Black PP liners with the white polystyrene core
- **Stadur Viscom Magnetic** - Based on the SF grade this sheet is pre-applied with magnetic PVC base one-side for the production of large magnetic displays. 10.5mm as standard
- **Stadur Viscom Whiteboard** - Also based on the SF grade this sheet is pre-applied with magnetic whiteboard film. 10.5mm as standard
- **Stadur Viscom Deco** - Pre-laminated range of over 200 décor finishes and embosses. Max sheet size 1300 x 3050mm
- **Stadur Viscom Wood Fibreboard** - Polystyrene core laminated with white coated hard fibreboard for extreme strength. Sheet size 2030 x 2800mm
- **Stadur Viscom Mounting Systems** - a choice of fixing systems for hanging Stadur lightweight boards
- **Powerfix** - Adhesive cartridges for bonding Stadur products

* Minimum purchases apply

* You may also be interested in Stadur SF, Stadur Edge, Forex Print, Foamalite Xpress or Forex Lite

STADUR ACCESSORIES

Stadur accessories comprise high quality PP self-adhesive edging strips available in 50m cartons, and Powerfix adhesive for fixing of fabricated designs. Powerfix is also suitable for adhering different substrates to Stadur products.

POLYESTER SHEET

LUMEX® A DIN 4102 - B1

LUMEX® A

LUMEX® A is a clear thermoplastic sheet ideally suited to flat and arched applications. The sheets have very good printability with UV-resistant inks and are flame-retardant. LUMEX® A is also extremely impact resistant even at sub-zero temperatures and shows outstanding weather resistance.

ITEM NUMBER	DESCRIPTION		DIMENSIONS	MOQ
611937	Lumex A APET Clear	 B1	1250 x 2500mm 3mm	1
611938	Lumex A APET Clear	 B1	1250 x 2500mm 5mm	1

In addition 3A offer the following additional products ex mill*:

- Thickness from 0.8 - 6mm
- Lengths up to 6050mm
- Opal and Anti-Reflective finishes
- Translucent and opaque colours

* Minimum purchases apply

MONDO RECYCLED PET-GAG

Gloss Clear G-PET is made as an A-B-A co-extrusion using 85% post-consumer waste in the core, and virgin PET layers for perfect printing and cutting performance to the outer faces. Otherwise known as GAG. Caltek G-PET is the perfect environmental choice to replace PVC for all types of POS, display, packaging and more. Mondo G-PET is also now available with an embossed mark-resist finish one-side. Use for graphic overlays, poster covers, counter mats, mouse mats, packaging, POS and display.

ITEM NUMBER	DESCRIPTION		DIMENSIONS	MOQ
603500	Mondo Recycled Gloss Clear PET-GAG 85% PCW		635 x 914mm 150 micron	200
603501	Mondo Recycled Gloss Clear PET-GAG 85% PCW		635 x 914mm 220 micron	150
603502	Mondo Recycled Gloss Clear PET-GAG 85% PCW		1040 x 1550mm 220 micron	50
603503	Mondo Recycled Gloss Clear PET-GAG 85% PCW		850 x 1250mm 300 micron	50
603504	Mondo Recycled Gloss Clear PET-GAG 85% PCW		635 x 914mm 400 micron	100
603505	Mondo Recycled Gloss Clear PET-GAG 85% PCW		1040 x 1550mm 400 micron	50
603506	Mondo Recycled Gloss Clear PET-GAG 85% PCW		1067 x 1575mm 400 micron	50
603507	Mondo Recycled Gloss Clear PET-GAG 85% PCW		1040 x 1550mm 600 micron	25
626480	Mondo Recycled Embossed Clear PET-GAG 85% PCW		700 x 1000mm 250 micron	50
626481	Mondo Recycled Embossed Clear PET-GAG 85% PCW		700 x 1000mm 400 micron	50

In addition we can access alternative ex-mill* grades including:

- 50% PCW
- 100% virgin
- Bespoke sheets and reels
- White
- Opal

* Minimum purchases apply

* You may also be interested in Priplak Cristal Plus, Priplak Opaline or Priplak Basik Frosted

CALENDERED PVC

OPAQUE PVC REELS AND ROLLS

STAUFEN MATT WHITE OPAQUE REELS AND ROLLS

Staufen Matt White rigid PVC unplasticised film is calendered to give a smooth matt white finish on both sides. Master reels available for conversion.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ

EXTEN VISUAL OPAQUE HMPP POLYPROPYLENE

Exten Visual Opaque is, unique high modulus polypropylene sheet for sign and display containing 30% post-industrial waste in its manufacture. The stiffened formulation makes it an ideal sustainable replacement for rigid or foamed PVC, as well as other materials that may be difficult to recycle. HMPP is primer coated for superior ink adhesion from all UV flatbed devices. HMPP can be recycled alongside standard polypropylene sheets.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
602731	Exten Prime-Ex x2 HMPP Visual Opaque 98 Gloss/Gloss 0067A	1200 x 2400 1.1mm	5
602732	Exten Prime-Ex x2 HMPP Visual Opaque 98 Gloss/Gloss 0067A	1200 x 2400 1.5mm	3

The Exten Visual Opaque range is available in additional ex-mill* makings:

- Bespoke thicknesses and sheet sizes
- B-s1-d0 Flame retardent additive (>min u)

* Minimum purchases apply

PRIPLAK CLASSIC

PRIPLAK®

The original emboss and most popular solid finish with a smooth matt top and textured pearl back. Priplak Classic is 100% recyclable and is corona treated both sides for print compatibility. Polypropylene has high strength and low density making it up to 35% lighter than equivalent thickness of PVC sheets.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
615198	Priplak Classic White	650 x 1100mm 500 micron	50 SHEET
615199	Priplak Classic White	650 x 1100mm 800 micron	40 SHEET
615192	Priplak Classic White	1000 x 1400mm 800 micron	20 SHEET
615201	Priplak Classic White	650 x 1100mm 1800 micron	15 SHEET
615200	Priplak Classic White	1400 x 2175mm 800 micron	10 SHEET
615202	Priplak Classic Black	650 x 1100mm 500 micron	50 SHEET
615193	Priplak Classic Black	650 x 1100mm 800 micron	40 SHEET
615203	Priplak Classic Black	650 x 1100mm 1200 micron	25 SHEET

Priplak offer an extensive ex-mill* offering with reasonable minimum order quantities, including:

- Thickness from 270 - 2000 micron
- Colours 280 - 1800 micron
- Bespoke sheet sizes up to 1440 x 2650mm
- Colour match - matched to specified RAL or Pantone colours
- 500kg minimum

* Minimum purchases apply

PRIPLAK BASIK

Priplak Basik is a cost effective range of white and frosted sheets made to commercial tolerances. Basik is 100% recyclable and is corona treated both sides for print compatibility. Basik is supplied with a matt/pearl finish and in white and clear frosted colours.

PRIPLAK®

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
615240	Priplak Basik White	720 x 1020mm 450 micron	75 SHEET
615194	Priplak Basik White	650 x 1100mm 750 micron	50 SHEET
615241	Priplak Basik White	720 x 1020mm 750 micron	50 SHEET
615195	Priplak Basik White	650 x 1100mm 1150 micron	30 SHEET
615196	Priplak Basik Frosted Clear	650 x 1100mm 450 micron	75 SHEET
615197	Priplak Basik Frosted Clear	650 x 1100mm 750 micron	50 SHEET

PRIPLAK OPALINE

The original emboss and most popular translucent finish in clear and coloured tints. Smooth matt top and textured pearl back. Priplak Opaline is 100% recyclable and corona treated both sides for print compatibility. Polypropylene has high strength and low density making it up to 35% lighter than equivalent thickness of PVC sheets.

PRIPLAK®

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
615204	Priplak Opaline Clear Frosted	650 x 1100mm 500 micron	50 SHEET

Priplak offer an extensive ex-mill* offering with reasonable minimum order quantities, including:

- Thickness from 270 - 2000 micron
- Translucent colours 280 - 1800 micron
- Bespoke sheet sizes up to 1440 x 2650mm
- 500kg minimum

* Minimum purchases apply

PRIPLAK IZILYSS OPAQUE

Izilyss Opaque has increased opacity for double sided printing and is available in large format sizes for POS work. Priplak Izilyss Opaque is 100% recyclable and is corona treated both sides for print compatibility. Priplak can be rolled, cut or creased and is suitable for welding, gluing and foil blocking. Polypropylene has high strength and low density making it up to 35% lighter than equivalent thicknesses of PVC sheets.

PRIPLAK®

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
615242	Priplak Izilyss Opaque White	1067 x 1575mm 280 micron	50 SHEET
615243	Priplak Izilyss Opaque White	1250 x 1850mm 280 micron	40 SHEET
615206	Priplak Izilyss Opaque White	1067 x 1575mm 400 micron	40 SHEET
615207	Priplak Izilyss Opaque White	1250 x 1850mm 400 micron	25 SHEET

Priplak offer an extensive ex-mill* offering with reasonable minimum order quantities, including:

- Thickness from 270 - 1600 micron
- Bespoke sheet sizes up to 1440 x 2650mm
- 500kg minimum

* Minimum purchases apply

PRIPLAK CRISTAL PLUS

PRIPLAK®

Priplak Cristal Plus has a clear gloss finish providing a great balance between clarity and price for a clear sheet. Cristal Plus is 100% recyclable and is corona treated both sides for print compatibility. A 3-month corona guarantee applies. Anti-static treatment is also added to prevent blocking.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
615208	Priplak Cristal Plus Gloss Clear	720 x 1020mm 300 micron	100 SHEET
615209	Priplak Cristal Plus Gloss Clear	720 x 1020mm 500 micron	50 SHEET
615210	Priplak Cristal Plus Gloss Clear	800 x 1200mm 750 micron	30 SHEET

Priplak offer an extensive ex-mill* offering with reasonable minimum order quantities, including:

- Thickness from 300 - 1200 micron
- Bespoke sheet sizes up to 1400 x 1200mm
- 500kg minimum

* Minimum purchases apply

PRIPLAK BACKLIT

PRIPLAK®

Translucent matt/pearl finish designed for illuminated signs and backlit displays. Priplak Backlit is 100% recyclable and is corona treated both sides for print compatibility. Polypropylene has high strength and low density making it up to 35% lighter than equivalent thickness of PVC.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
615211	Priplak Backlit	1250 x 1850mm 300 micron	40 SHEET

PRIPLAK R100

PRIPLAK®

Priplak R100 is a range made from 100% recycled PP. This product comes from unprinted post industrial polypropylene scrap purchased through the Priplak buy back scheme. Priplak sort and regranulate the waste before converting it back into sheet. R100 conforms to ISO14021 and remains 100% recyclable just as the rest of the Priplak range.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
615213	Priplak R100 White	650 x 1100mm 450 micron	50 SHEET
615214	Priplak R100 White	650 x 1100mm 750 micron	25 SHEET

Priplak offer R100 in additional ex-mill* specifications, including:

- Thickness from 300 - 1600 micron
- Bespoke sheet sizes up to 1440 x 2650mm
- Various embosses
- Black, natural and colours
- 500kg minimum

* Minimum purchases apply. Availability dependant on recycled raw material availability

FLUTED POLYPROPYLENE

BIPRINT®

Biprint® 's double-sided corona treatment allows for easy printing. It is strong, light weight and resistant to moisture, making it ideal for indoor and outdoor applications. Biprint® can be cut with ease and converted to almost any shape. Extruded from polypropylene copolymer, Biprint® is more durable than cardboard and is completely recyclable.

Biprint®

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
603947	Biprint Fluted Polypropylene	1220 x 2440mm 4mm/650gsm	5 SHEET

Biprint fluted can also be supplied ex-mill* to the following specifications:

- 2 - 10mm thickness (200gsm - 2000gsm)
- Bespoke sizes
- UV stabilised
- FR treatment
- Anti-static
- Natural clear + 10 standard colours
- Colour match - matched to specified RAL or Pantone colours

TRIAPRINT**DIN 4102 - B1****Triaprint®**

Triaprint is a polypropylene sheet consisting of three co-extruded layers. The core being a cell-structured layer ('bubble' structure). The structured core assures excellent rigidity and compression strength from a super lightweight sheet designed to replace other less sustainable foam PVC and soft foam boards. Triaprint is offered in both UV and FR treated formulations. UV extending outdoor durability and FR achieving a robust B1 fire rating. All sheets are corona treated as standard for UV printing.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
629806	Triaprint cell structured Polypropylene UV	1220 x 2440mm 3.4mm	5
629807	Triaprint cell structured Polypropylene UV	1500 x 3050mm 3.4mm	5
629808	Triaprint cell structured Polypropylene UV	1220 x 2440mm 5.7mm	5
629809	Triaprint cell structured Polypropylene UV	1500 x 3050mm 5.7mm	5
629810	Triaprint cell structured Polypropylene FR	1220 x 2440mm 3.4mm	5
629811	Triaprint cell structured Polypropylene FR	1500 x 3050mm 3.4mm	5
629812	Triaprint cell structured Polypropylene FR	1220 x 2440mm 5.7mm	5
629813	Triaprint cell structured Polypropylene FR	1500 x 3050mm 5.7mm	5

To compliment the Triaprint range we also offer ex-mill* access to an extended range including:

- Thickness range from 2.7 to 10mm
- Up to 2050 x 3050mm sheet size
- Bespoke sizes
- Black core
- Triaprint colours - 12 standard colours
- Colour match - matched to specified RAL or Pantone colours
- Coloured core - 10 tonne minimum

* Minimum purchases apply

* Matching Self-adhesive: Coala® PP Stick HT

FOAM CENTRED BOARD

KAPA®FIX**DIN 4102 - B2****KAPA®**

KAPA®fix is a lightweight polyurethane foamboard with self-adhesive, aluminium-reinforced paperboard covering layers on one side to make immediately ready for lamination and mounting. The board is flame retardant to class B2.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
611834	KAPA®Fix silver centre self-adhesive	700 x 1000mm 5mm	BOX 24
611833	KAPA®Fix silver centre self-adhesive	1000 x 1400mm 5mm	BOX 24

In addition to the Stadur SF and Easyprint grades available from Antalis stock, we also offer ex-mill* access to additional grades including:

- Thicknesses of 3, 5 and 10mm
- Up to 3050 x 1530mm sheet size
- 5mm double-sided adhesive

* Minimum purchases apply

KAPA®LINE

KAPA®line is a lightweight polyurethane foamboard with covering layers of coated cartonboard. KAPA®line is 3A's multipurpose all-rounder within the KAPA® portfolio. The boards make an outstanding substrate for both digital and screen printing, can be used for POS and display work, decorative applications and model making, and can be easily hand or die cut. The combination of low weight and high strength are the defining qualities of KAPA®line foamboard.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
611832	KAPA®line	700 x 1000mm 5mm	BOX 24
611828	KAPA®line	762 x 1016mm 5mm	BOX 24
611831	KAPA®line	1000 x 1400mm 5mm	BOX 24
611829	KAPA®line	1016 x 1524mm 5mm	BOX 24

611830	KAPA®line	1016 x 1524mm 10mm	BOX 12
611836	KAPA®line	1220 x 2440mm 10mm	BOX 12

In addition to stock we also offer ex-mill* access to additional grades including:

- Thicknesses of 3, 5 and 10mm
- Up to 3050 x 2030mm sheet size

* Minimum purchases apply

KAPA®MOUNT DIN 4102 - B2

KAPA®mount is a lightweight polyurethane foamboard with aluminium reinforced liners finished with white paperboard covering layers. KAPA®mount demonstrates outstanding flatness and rigidity, and is perfect for mounting of your printed media. Alternatively KAPA®mount boards can be printed using direct digital printing. The boards are flame retardant BS 476 part 7 class 1.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
611835	KAPA®mount 	1000 x 1400mm 5mm	BOX 24
611837	KAPA®mount 	1016 x 1524mm 5mm	BOX 24
611849	KAPA®mount 	1220 x 2440mm 5mm	BOX 18
611847	KAPA®mount 	1530 x 3050mm 5mm	BOX 16

In addition to stock we also offer ex-mill* access to additional grades including:

- Thicknesses of 5 and 10mm
- Up to 3050 x 1530mm sheet size

* Minimum purchases apply

KAPA® PLAST

KAPA®Plast foam board combines high-quality plastic-coated layers with a polyurethane foam core. Its excellent stiffness and fire-retardant properties make KAPA®Plast perfect for displays, signage, and interior design. KAPA®Plast can be laminated, UV printed, die-cut, and more.

ITEM NUMBER	DESCRIPTION		DIMENSIONS	MOQ
611840	KAPA®Plast	◆ B2	1530 x 3050mm 5mm	BOX 16
611841	KAPA®Plast	◆ B2	1220 x 2440mm 5mm	BOX 18

In addition to stock we also offer ex-mill* access to additional grades including:

- Thicknesses of 3 0 20.5mm
- Up to 4000mm lengths
- White or Grey foam core

* Minimum purchases apply

FOAM-X® PRINT

Foam-X® is a lightweight foamboard with a polyurethane foam core and coated multi layered FSC® recycled paper liners, suitable for indoor applications. The material provides an ideal weight to stability ratio and additionally can be processed very easily with manual tools. FOAM-X® foamboards are particularly suitable for short-term, indoor applications such as POS / POP displays, suspended signs and interior decoration.

ITEM NUMBER	DESCRIPTION		DIMENSIONS	MOQ
609693	Foam-X® Print Foam Centred Bright White		1016 x 1524mm 5mm	BOX 24
609694	Foam-X® Print Foam Centred Bright White		1220 x 2440mm 5mm	BOX 24
609695	Foam-X® Print Foam Centred Bright White		1220 x 2440mm 10mm	BOX 12

In addition to stock we also offer ex-mill* access to additional grades including:

- Thickness up to 20mm
- Lengths up to 4000mm
- Width up to 2030mm

* Minimum purchases apply

ECO SIGNAGE BOARD

DISPA®

DISPA®

DISPA® is a lightweight, sustainable, bi-direction core display board for printing, including latex. The board is made entirely of FSC® certified paper and is 100% recycled easily at end-of-life. The structure of the board results in optimal flatness and dimensional stability in both directions, unlike standard corrugated boards. DISPA® is the perfect solution for indoor POS and display, hanging signs and more - and with the correct tools can be made into three-dimensional displays.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
608789	Dispa® Display Board White FSC	1840 x 1250mm 2.4mm	20 SHEET
608790	Dispa® Display Board White FSC	2450 x 1250mm 2.4mm	15 SHEET
608787	Dispa® Display Board White FSC	1016 x 1524mm 3.8mm	10 SHEET
608785	Dispa® Display Board White FSC	1840 x 1250mm 3.8mm	10 SHEET
608786	Dispa® Display Board White FSC	2450 x 1250mm 3.8mm	10 SHEET
608788	Dispa® Display Board White FSC	3048 x 1524mm 3.8mm	10 SHEET

In addition to the standard Dispa indoor product an ex-mill* provision of the following is available:

- DISPA® outdoor - 2.2mm board for short-term exterior use
- DISPA® canvas - 3.8mm fibre board with textured canvas feel

* Minimum purchases apply

* Matching Self-adhesive: Coala® Paper Stick

KATZ DISPLAY BOARD

KATZ DISPLAY BOARD

the eco solution

Katz Display Board is a premium, sustainable wood pulp board developed as an environmentally friendly alternative to the use of rigid plastic for internal POS and display. Katz has super strength and dimensional stability and is 100% recyclable in normal waste paper streams. The environmentally friendly wood pulp core is laminated with high white semi-matt poster papers offering excellent print results. Katz is also latex printable.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
611876	Katz Display Board	1220 x 2440mm 3mm	5 SHEET
611877	Katz Display Board	1220 x 2440mm 5mm	5 SHEET

Katz Display Board can also be supplied with the following ex-mill* provision:

- 800 x 1200mm sheet size
- 1.2, 1.6, 2.0, 3.0 and 5.0mm thicknesses

* Minimum purchases apply

* Matching Self-adhesive: Coala® Paper Stick

KATZ OUTDOOR DISPLAY BOARD

KATZ DISPLAY BOARD outdoor
the eco solution

Katz Outdoor board is made of strong wood pulp board laminated with water repellent high white poster paper liners either side. Outdoor board is the ideal replacement for plastic boards to create short-term outdoor signage. The product can be used in outdoor conditions for several weeks, without significant impact or visual change of the printed image.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
611880	Katz Display Board Outdoor	1220 x 2440mm 2mm	5 SHEET

Katz Outdoor Display Board can also be supplied with the following ex-mill* provision:

- 1.2, 1.6, 2.0 and 3.0mm thicknesses

* Minimum purchases apply.

KATZ BEER MAT BOARD

THE **KATZ** GROUP
Member of the Koehler Paper Group

Katz Beer Mat board is a high white wood pulp, pulp board mainly used for the production of printed beer mats. Offering excellent strength and super absorbency, Katz Beer Mat board can be offset or digitally printed and die cut to shape.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
611879	Katz Beer Mat Board	700 x 1000 x 1.2mm/500gsm	200 SHEET

KATZ AIR FRESH BOARD

THE **KATZ** GROUP
Member of the Koehler Paper Group

Katz Air Fresh board is a specially developed, highly absorbent wood pulp board. Primarily used to produce air fresheners, the board is designed to both store and gradually release added fragrances over time. Katz Air Fresh has excellent whiteness properties guaranteeing top-quality results from offset and digital printing technologies.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
611878	Katz Air Fresh Board	700 x 1000 x 1.5mm/625gsm	200 SHEET

LIBRA WEATHERBOARD

LIBRA

Libra Weatherboard is our own brand UK manufactured exterior grade board. Suitable for outdoor use for up to 8 weeks, Libra Weatherboard achieves moisture resistance from its hard sized recycled middle and kraft top liners. The board has excellent rigidity and can be printed digitally, including latex.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
611898	Libra Weather board FSC	1600 x 2440mm 1500 micron/1090gsm	10 SHEET

In addition Weatherboard can be supplied ex-mill*:

- Bespoke sheet sizes and alternative thicknesses on application

* Minimum purchases apply

ESKA® BOARD

A graphic solid board made from 100% recovered paper and available with two options; in grey both sides and white-lined one side. This quality FSC® recycled certified greyboard has excellent lay flat, stay flat properties which, together with its strength and rigidity makes it suitable for book covers, board games, a wide variety of POS and display applications - and much more.

CLOSED CELL BOARD

XANITA PRINT WHITE

Xanita Print is a natural fibre based board consisting of a part recycled kraft core sandwiched between printable white recycled kraft liners. The high crush strength core renders the board to be the ideal replacement for MDF, wood, rigid and foam core plastics for such applications as POS, display, shop-fit and exhibition stand builds. Xanita can be easily converted to complex 3D shapes on all CNC plotter cutters and is digitally printable including being suitable for latex.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
618005	Xanita Print White	1220 x 2440mm 6mm	5 SHEET
618006	Xanita Print White	1220 x 2440mm 10mm	5 SHEET

XANITA ACCESSORIES

Xanita edge strips are occasionally used to finish the open board edges. These PVC strips are applied with hot-melt glue and can be easily removed at end of life to ensure board recyclability. Edge strips can offer durability where required and are only used where design and life expectation might dictate. We encourage design with minimal fixings and hardware in order to maintain the sustainability and re-use of the application. Along with Xanita we can offer assistance on design in order to achieve this.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
618010	Xanita PVC Edge Strip	10mm x 20mtr	20mtr
618011	Xanita PVC Edge Strip	16mm x 20mtr	20mtr

Additional finishing products ex-mill* include:

- Self-adhesive paper edging available in white and black in all widths from 6-16mm

* Minimum purchases and charges apply

POLYMERIC VINYL

Coala 2D Daily DIN 4102 - B1

80 micron polymeric gloss white self-adhesive vinyl with a water-based permanent grey adhesive and PE liner. Can be used on curved surfaces, dimensionally stable and suitable for long-term outdoor prints up to 7 years. Also available in air free for easy apply. B1 Fire rated. Compatible with solvent, UV and latex.

Coala 2D EN13501-1 C-S1-D0

80 micron polymeric gloss and matt self-adhesive available with standard permanent clear solvent adhesive (P) and air-free permanent grey solvent adhesive (PG). Laminated on a two-sided PE coated silicone paper liner. In addition to excellent opacity and flatness, these films offer high dimensional stability and are particularly suitable for application on flat and slightly curved surfaces.

Orajet 3551 EN 13501-1 - C-S2, D0 RA=B-S0-D0

70 micron polymeric with a repositionable grey permanent water-based adhesive. Suitable for long-term outdoor graphics up to 7 years. Also available in (RA) easy apply. Fire rated. Compatible with solvent, UV and latex.

Orajet 3651 EN 13501-1 - C-S1, D0

70 micron blended polymeric with solvent permanent grey adhesive. Suitable for medium-term outdoor graphics up to 5 years. Also available in (RA) easy apply. Fire rated. Compatible with solvent, UV and latex.

SPECIALIST SELF-ADHESIVE

WINDOW STICK

Coala Pro Tack S

75 micron PET film with a specially designed hybrid silicon adhesive for easy wet or dry application without residue. Available in optically clear or white. Printable solvent / UV / latex.

Orajet 3850

Orajet 3850 is an 80 micron polymeric translucent PVC film with a clear solvent permanent adhesive. Ideal for lightboxes/ backlit applications. Printable solvent / UV / latex.

Coala Frosted Air Free DIN 4102 - B1

80 micron printable polymeric PVC film frost effect translucent with a PE-coated liner and an air release solvent acrylic adhesive. Developed to achieve a frosty effect on glass, mirrors and plastic. Printable with eco-solvent, solvent and UV printers.

Coala Dusted Air Free

80 micron printable polymeric PVC film dusted effect translucent with a semi-permanent adhesive and air release liner for easy application laminated with a PE liner for smooth transit. Coala Dusted is especially developed to achieve a sand blasting effect on glass and mirrors as well as transparent plastic sheets. Suitable for the use on flat as well as slightly curved surfaces. Printable with eco-solvent, solvent and UV printers.

Penstick Self Cling Digital

150 micron PVC Digital static cling film that will adhere and reposition to smooth clean surfaces without the need for adhesive. Compatible with solvent, UV and latex.

YUPO Tako

YUPO Tako means octopus in Japanese. YUPO Tako is a white polypropylene film that sticks to surfaces with suction due to its micro suction structure. It uses no adhesive, leaving no sticky feeling on the label. Recyclable.

YUPO Jelly

YUPO Jelly is a clear polyester film that sticks to flat surfaces with no adhesive due to its clear micro structure on the back side. The surface has been specially developed for UV silkscreen, UV digital and UV offset printing. YUPO Jelly is free of PVC and recyclable.

ONE WAY VISION SELF-ADHESIVE

Coala View

145 micron white gloss perforated monomeric self-adhesive window film with a black back and semi-permanent adhesive. 60% printable 40% show through. Suitable for solvent, UV, latex printing.

Contra Vision® Campaign™ White on Black

Contra Vision® Campaign™ White on Black (WBAG) is a range of 150 micron monomeric white on black perforated self-adhesive vinyls available in varying transparencies (20/30/40%) with a removable, pressure-sensitive adhesive. Contra Vision Campaign features a grey additional liner that avoids filling of the perforated holes when UV printing.

Contra Vision® Campaign™ Clear Monomeric

Campaign™ (CLMAC30A) is a clear perforated self-adhesive vinyl with 30% transparency; and a removable, pressure-sensitive adhesive, featuring a clear universal liner. For inside applied one-way vision graphics, print the image design as reverse-read and over-print with white and black ink layers. For inside applied backlit see-through graphics, print the image design as reverse-read and over-print with a translucent white ink layer.

Contra Vision® Performance™ White on Black

Contra Vision® Performance™ (WPAG) is a range of polymeric white on black perforated self-adhesive vinyls with a variety of transparencies (20/30/40/50%) and a removable, pressure-sensitive adhesive, featuring Grayliner™ technology for accurate viewing. This film allows an image to be seen on the outside of a window while allowing viewing through from the inside. Compatible with solvent / UV / latex.

Contra Vision® Performance™ HD White on Black

Contra Vision® HD™ a unique polymeric range that features 1mm diameter holes, which are 60% smaller in area than standard one-way vision perforations. This break-through micro perforated window film delivers minimal disruption to the graphics, produces stunning images to one side and from the other the smoothest see-through compared to any other perforated window films available.

Contra Vision® Performance™ Translucent

Translucent white polymeric perforated window film (TWPAG30) enables see-through graphics to be illuminated at night using (back) lighting from inside the window. The printed graphics can be partially seen from inside but the see-through is still good. Available in a variety of transparencies.

Contra Vision® Dual Colour Signage

Black (BBPAG20) polymeric self-adhesive vinyl with 20% transparency for dual-colour signage. Applied on the external surface of external back-lit signs it appears black during the day and back lit by night.

Orajel 3675

140 micron perforated special PVC film with a black back and permanent solvent adhesive. This film has 50% show through.

HIGH TACK VINYL

Antalis Ultrastick BS476 - CLASS 0 / EN13501-1 C-S1,D0

100 micron matt monomeric with extremely high tack grey acrylic adhesive (25n/25mm). Suitable for adhesion on to flat, hard to stick, low energy surfaces.

Orajet 3164HT

100 micron monomeric soft PVC with a clear high tack polyacrylate adhesive (22n/25mm). For brilliant and colourful advertising for short and medium-term outdoor use. The strong permanent adhesive exhibits excellent initial peel adhesion even onto apolar surfaces.

Orajet 3554 Brickstone Film

70 micron matt polymeric with a grey back high tack solvent adhesive (24n/25mm) for brilliant and colourful outdoor advertising, to be applied to flat or simple curved unsealed textured surfaces, such as brick, concrete block and poured concrete.

Coala Supertack Daily DIN 4102 - B1

80 micron matt polymeric PVC digital printing film. High-tack adhesive (20n/25mm), especially designed for hard to stick flat and semi curved surfaces like PE, PP, etc. The permanent grey coloured adhesive shows a high opacity. For long-term advertisements indoor and outdoor to a wide variety of substrates like plastics, Foamex, glass and aluminium. Printable solvent, UV and latex.

Coala PP Stick HT EN 13501-1 - B-S1-D0

Plasticizer-free matt self-adhesive polypropylene film with a high tack adhesive (24n/25mm) suitable for application onto low energy surfaces, such as polypropylene making an ideal match for Triaprint PP board. Compatible with HP latex and UV inkjet printing.

REPOSITIONABLE VINYL

Antalis Re-stick 150 BS476 - CLASS 0 / EN13501-1 - C-S1,D0

150 micron matt polymeric with hybrid silicon adhesive that doesn't gain tack making it ideal for repositionable graphics onto flat and semi curved surfaces. Re-Stick 150 can be clean removed and repositioned multiple times without damaging surfaces or leaving adhesive residue. The 150 micron thickness makes it easy to apply and covers surface imperfections.

CALALA® ORAJET®

Orajet 3268 EN 13501-1 - C-S2, D0

150 micron matt white self-adhesive with a repositionable clear polyacrylate adhesive for indoor applications onto wall paper, e.g. decorations and advertisements.

Orajet 3628 EN 13501-1 - B-S2, D0

80 micron matt and gloss self-adhesive with a repositionable clear polyacrylate adhesive for indoor applications onto wall paper, e.g. decorations and advertisements.

EASY APPLY VINYL

Coala Easy Spot DIN 4102 - B1

100 micron PVC monomeric with a dot pattern adhesive for super easy, air-free application onto flat surfaces. Also available in PVC-free 120 micron PP.

Orajet 3162XRA EN13501-1 - C-S2,D0

100 micron monomeric with removable easy apply grey acrylic adhesive. The *RapidAir*® technology liner enables easy and quick application without air inclusion, especially of large-sized decals.

Orajet 3164XRA EN13501-1 - B-S1,D0

100 micron monomeric with permanent easy apply grey acrylic adhesive. The *RapidAir*® technology liner enables easy and quick application without air inclusion, especially of large-sized decals.

Coala 2D Daily Air Free B1

80 micron polymeric with grey acrylic adhesive and air-free liner.

Coala 2D Air Free C-S1-D0

75 micron polymeric with grey solvent adhesive and air-free liner for easy application.

Orajet 3551RA B-S1-D0

70 micron polymeric with repositionable, permanent solvent adhesive and rapid-air technology for easy application. Suitable for long-term outdoor graphics up to 7 years.

Orajet 3651RA C-S1-D0

70 micron blended polymeric with solvent permanent adhesive and rapid air technology for easy application. Suitable for medium-term outdoor graphics up to 5 years.

Orajet 3951RA+ ProSlide EN 13501-1 - B-S1, D0

55 micron premium multi-layered gloss cast film with new *RapidAir*® ProSlide micro channel permanent adhesive for quick easy bubble free application and improved repositionability. Extreme durability up to 10 years and highly conformable for corrugations and on rivets ideal for full vehicle graphics. Fire rated. Compatible with solvent, UV and latex.

608398	Coala Blockout SAV Matt White P	1370mm x 50m 100 micron	1 ROLL

GREEN

Coala Paper Stick P

140gsm satin coated paper with a permanent clear acrylic adhesive on the reverse. Good opacity and suitable for indoor and short-term outdoor POS signage, exhibition graphics, posters etc. Mounts to most flat surfaces.

Coala Paper Stick R

180gsm white satin self-adhesive paper with a semi-permanent water-based acrylic adhesive and a white kraft liner. The face material and the backing are made from a renewable fibre based product. Coala paper stick R is designed for promotional indoor graphics, on flat, glass surfaces, where smooth removability is required. It allows repositionability during application due to its adhesive properties and high stiffness.

Coala PP Stick

A range of PVC-free polypropylene printable self-adhesive films. Available in a variety of adhesives, finishes and some featuring easy apply airflow liners. High tack fire rated.

Orajet 3174X

100 micron polypropylene film with a permanent grey acrylic adhesive. Suitable for indoor and short-term outdoor use.

Orajet 3720 and 3740

60 micron white matt polypropylene with a clear removable (3720) or permanent (3740) water based adhesive and surface coating for printing with UV inkjet. Ideal for temporary advertising outdoor durability can be extended with the laminating film ORAGUARD® 236.

Coala Easy Spot PP

120 micron matt PP with a spot-adhesive making it super easy to apply without air bubbles. Solvent, UV and latex print compatible.

Coala Magic Cling UV

Clear polypropylene statically charged film, lined with a PET backer. This film will stick to most surfaces smooth or rough making it ideal for POS, UV inkjet printable.

Coala Pro Tack S

75 micron PET film with a specially designed hybrid silicon adhesive for easy wet or dry application without residue. Available in optically clear or white. Printable solvent / UV / latex.

YUPOJelly

YUPOJelly is a clear polyester film that has a micro-structure on the reverse side that sticks to any flat surface without adhesive. Graphics made of YUPOJelly are easy to apply, and easy to remove.

YUPOTako

YUPOTako is a unique white polypropylene film with suction technology that sticks to flat surfaces without adhesive and leaves no residue. YUPOTako is reusable: simply clean the micro suction side with water if the adhesion is weakened by dust or dirt.

LARGE FORMAT DIGITAL FINISHING

PRESSURE SENSITIVE LAMINATES

MONOMERIC LAMINATES

Coala 1D Laminate Gloss/Matt EN13501: B-S1,D0

80 micron transparent monomeric PVC with an ultra clear permanent acrylic adhesive. Available in gloss and matt finish with additional UV inhibitor for long-term display on flat surfaces up to 3 years. Can also be printed with solvent, UV and latex. Fire rated for internal display.

Coala Floor Lam Sand R9 DIN 4102 - B1

100 micron textured monomeric laminate suitable for internal floor-graphics (PTV Low slip D63/W63) and scratch protection of display graphics.

Oraguard 200

70 micron soft PVC laminate with a high level of UV protection. Available in a glossy and matt finish with a polyacrylate adhesive for short-term indoor and outdoor application. 2 year durability.

Oraguard 210G

70 micron soft PVC laminate with a high level of UV protection. Available in a glossy and matt finish with a solvent adhesive. Excellent protection of digitally printed large format images in indoor and outdoor applications. 4 year durability.

POLYMERIC LAMINATES

Coala UV Lam 2D DIN 4102 - B1

70 micron polymeric laminate film with heavy coat weight permanent acrylic adhesive for laminating over any print including UV inks. Additional UV inhibitor to prolong the life of graphics.

Coala 2D Lam EN 13501 C-S1,D0

75 micron polymeric laminate with a clear solvent adhesive suitable for long life protection of graphics up to seven years exterior, also printable solvent, UV and latex.

Oraguard 215

75 micron polymeric PVC over-laminate with a solvent adhesive and a high level of UV protection. 5 year durability.

Oraguard 215 DU

75 micron polymeric PVC laminate with a heavy coat weight solvent adhesive for laminating UV prints. 5 year durability.

TEXTURED / FLOOR GRAPHICS LAMINATES

Coala Floor Lam Sand R9 DIN 4102 - B1

100 micron monomeric textured lamination film for floor graphics. The structured surface of the film assures the anti-slip protection (R9). This product is especially made for indoor use. This laminate can be used to protect UV printed medias and is B1 certified. Suitable for floor-graphics DIN 511300 Class R9 slip rating for internal dry areas.

Coala Floor Lam Sand PP R9

125 micron high-quality, matt structured polypropylene film. For cold lamination and protection of printed media, including UV Inkjet printed substrates floor graphics as well as pop-up materials. Can be used to protect UV printed media. Suitable for floor graphics DIN 511300 Class R9 slip rating for internal dry areas.

Coala PP Floor Lam R10

170 micron thick textured PVC-free polypropylene suitable for scratch resistant display graphics and floor-graphics. R10 slip rated suitable for dry Internal areas with potential for spillage.

GREEN

Oraguard 236PP

60 micron polypropylene gloss laminate for the protection of large digitally printed formats for indoor and short-term outdoor use. Ideal for laminating Orajet 3174 and 3172 PP self-adhesive.

Coala PP Lam UV

60 micron polypropylene lamination film ideal for laminating Coala PP stick vinyl. Available in matt and gloss (gloss can also be used as dry wipe and anti-graffiti film), with additional UV stabilisers for outdoor use and a heavy coat weight of adhesive for UV ink compatibility and wet-out performance.

Coala Floor Lam Sand PP R9

125 micron high-quality, matt structured polypropylene film. For cold lamination and protection of printed media, including UV-Inkjet printed substrates floor graphics as well as pop-up materials. Can be used to protect UV printed media.

Coala PP Floor Lam R10

170 micron thick textured PVC-free polypropylene suitable for scratch protection of graphics and anti-slip rated internal floor graphics.

HIGH PERFORMANCE CAST 751

EN 13501-1 - B-S1, D0

Oracal 751 High Performance Cast is a 60 micron Cast PVC film developed for high end lettering and marking. It is suitable for uneven surfaces including rivets and corrugation, which makes it ideal for vehicle and public transport advertising and signage. It is available in a choice of 116 colours with a high gloss finish and 2 colours in a matt finish. It has a durability of 8 years.

GLASS DECOR VINYL

GLASS DECOR VINYL

Oracal 8510 Etched Glass Cal EN 13501-1 - B-S1, D0

Oracal 8510 Etched Glass Cal comes in gold and silver and opens up many possibilities for adding a special touch to shop windows, glass doors and glass like surfaces. Its medium glossy surface inhibits undesired reflections.

Oracal 8710 Dusted Glass Cal

Oracal 8710 Dusted Glass Cal is designed for glass decoration and its medium glossy surface inhibits undesired reflection.

Oracal 8810 Frosted Glass Cast EN 13501-1 - B-S1, D0

Oracal 8810 Frosted Glass Cast is suitable for high quality glass decoration with very good weather resistance and UV stability. The reduced gloss and the roughly structured surface inhibits undesired reflection.

REFLECTIVE

ORALITE® 5200 REFLECTIVE (ECONOMY GRADE)

Oralite® 5200 Economy Grade

ORALITE® 5200 Economy Grade are weatherproof, self-adhesive retroreflective films with an excellent corrosion and solvent resistance. The retro reflective system consists of catadioptric glass beads which are embedded in a transparent layer of plastic material. The smooth surface has a high scratch resistance and a good printability.

ORALITE® 5400 REFLECTIVE (INFORMATION SIGNAGE)

Oralite® 5400 are weatherproof, self-adhesive retroreflective films especially developed for the manufacture of guidance and information signs as well as for reflective advertising art, which are intended for a short-term outdoor use and which require just a minimum of retroreflection. The retroreflective system consists of catadioptric glass beads which are embedded in a transparent layer of plastic material. (Classification RA1)

APPLICATION TAPE

APPLICATION TAPE PAPER

Oratape LT52

95 micron semi-transparent mounting paper for the transfer of die-cut or computer-cut letters and symbols. Natural rubber, low adhesive strength.

Oratape MT52

Semi-transparent 95 micron mounting paper. Medium tack for the transfer of die-cut or computer-cut letters and symbols.

Oratape MT72

Semi-transparent 110 micron mounting paper with good dimensional stability and high resistance to moisture, medium tack for the transfer of die-cut or computer-cut letters and symbols.

ITEM NUMBER	DESCRIPTION	DIMENSIONS	MOQ
614595*	Oratape App Tape Low Tack Paper LT52	1000mm x 50m 95 micron	1 ROLL

SELF-ADHESIVE VINYL SHEETS

ORACAL MONOMERIC SHEETS

Oracal 640 DIN 4102 - B1

Oracal 640 is a very supple 80 micron print film especially suitable for screen printing but also performs well in UV offset printing and outdoors shows a performance of 3 years.

Oracal 1610

Oracal 1610 has been designed for short-term outdoor applications and is especially suited for stickers with large surface areas to be easily and residuelessly removed. The ultra-removable solvent based adhesive allows for problem free residueless removal even after 2 years.

Oracal 1620

Oracal 1620 is a 100 micron print vinyl which has been designed for screen printing but also performs well in UV offset printing. The 1620 has a removable adhesive which ensures residueless removal from almost all surfaces.

Oracal 1640 EN 13501-1 - C-S2, D0

Oracal 1640 is a 100 micron print vinyl with a permanent adhesive which has been designed for screen printing but also performs well in UV offset printing.

Oracal 1640HT

Oracal 1640HT is a 100 micron print vinyl with a permanent high tack adhesive for hard to stick surfaces which has been designed for screen printing but also performs well in UV offset printing.

DISPLAY ACCESSORIES

EXHIBITION AND DISPLAY STANDS

Roller banner and pop-up display stands for exhibition and point of sale.

Wasp Roller Banner - Snap clip

Economy range. Economical lightweight aluminium roller banner. Ideal for short-term events or display. Aluminium three-part bungee pole. Comes with nylon bag. 1 year guarantee on hardware.

Mantis Banner Stand - Snap clip

Mid Range. Weighted base for added stability. Twist out feet. Snap rail fixing. Includes side opening padded bag. 1 year guarantee on hardware.

Mosquito Banner Stand - Snap clip

Mid Range. Weighted base for added stability. Twist out feet. Snap rail fixing. Nylon bag with padded inner protection (double skin). 1 year guarantee on hardware.

Grasshopper Banner Stand - Adhesive rail

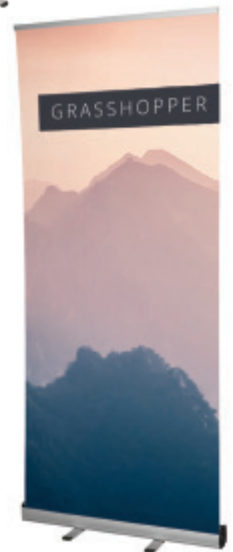

Adhesive top rail. Robust components and rigidising bracket offers increased durability and longevity for repeated use. Twin twist-out feet for greater stability. Anodised aluminium frame with aluminium end caps for extra strength. Padded nylon bag included for ease and comfort when transporting and storage. Suitable for repeated use, making it cost effective.

Delta Lite - Snap clip

Premium range. Elegant lightweight 'curved' design with chrome finished end covers. Hybrid adjustable telescopic pole. Base has adjustable feet for uneven floors. Includes premium padded carry bag. 5 year guarantee on hardware.

Barracuda Stand - Snap clip top rail

Trusted, best-selling premium roller banner. Wide footprint base for improved stability. Robust components, giving enhanced durability for repeated deployment. Levelling feet, adjustable height telescopic pole. Snap top rail, allows graphics to be fitted quickly and accurately. Anodised aluminium with eye-catching smoked grey translucent end trims. High quality padded carry bag. Suitable for repeated deployments. Durable components make it ideal for high traffic environments.

TAPES

Orabond 1395TM

130 micron total thickness. General purpose double sided polyester tape. For bonding of foams, paper and boards. Ideal for use in the production of indoor signs. Lightweight banner hemming tape. Solvent acrylate adhesive: after 1min: 18N/25mm, after 24hrs: 28N/25mm.

Orabond 1399TM

190 micron total thickness. High performance double-coated tissue tape. Ideal for POP displays, outdoor signs, and for splicing on difficult boards and banners. High peel and shear strength. Suitable for applications with an opaque finish. Solvent acrylate adhesive: after 1min: 21N/25mm, after 24hrs: 35N/25mm.

Orabond1397PP

210 micron total thickness. High performance double sided polyester tape. Ideal for POP displays, outdoor signs and banners. Compatible with APET, fluted PP board, foam board, HIPS. High stress resistance and high peel and shear strength. Heavy weight banner hemming. Solvent acrylate adhesive: 24N/25mm after 1 min: 24N/25mm, after 24hrs: 35N/25mm.

Oramount 1812T

1000 micron total thickness. High performance double-coated foam tape. For bonding rough or dissimilar surfaces. Ideal for outdoor signs, exhibition mounting, mirror mounting, etc. High peel and shear strength on difficult plastics. Solvent acrylate adhesive: after 1min: 18N/25mm, after 24 h: > 18N/25mm, foam tear.
